

## Steady-State Stability Chambers

Lunaire's steady-state chambers is available in four convenient workspace sizes of 8, 16, 32, and 58-cubic-feet with a variety of temperature and humidity combinations, these chambers provide the flexibility for a wide range of uses. The CEO Model chambers feature a high volume horizontal type airflow with electric heating and refrigeration systems.

Applications include ICH Q1A stability testing, accelerated shelf-life studies, package testing, controlled temperature storage, bio-medical research among many others. Chambers can also be configured as intrinsically safe to allow for hazardous materials testing applications.

### ► ICH Q1A Pharmaceutical Stability Guidelines

- Long Term: 25°C/60% RH, 25°C/40% RH, 30°C/35% RH or 30°C/65% RH
- Intermediate: 30°C/65% RH
- Accelerated: 40°C/75% RH, 25°C/60% RH

### ► Features

- All models feature vapor-tight, continuously welded stainless steel interiors
- 2-inch access port is standard on rear
- Temperature and humidity conditions are controlled with the Watlow F4T 1/4 DIN controller
- Data logging and Graphical trend chart for Watlow F4T controller
- Ethernet communication
- USB port
- Horizontal recirculation conditioning system
- Adjustable semi-pierced duct walls
- Stainless steel shelves
- Incoloy-sheathed tubular heaters
- Single stage reciprocating compressor
- Automatic hot gas defrost
- Platinum RTD temperature sensor
- Solid state humidity sensor
- Heavy-duty leveling casters

Note applicable to all models above:

1. Specifications are subject to change without notice.
2. Performance is based upon an empty chamber operating at 24°C (75°F) ambient air.
3. 50Hz and special voltages available upon special request. Consult factory for additional information.
4. On 50Hz or higher than 24°C ambient conditions, performance may be reduced.

### ► Available Options\*

- RS 232 or RS485 communications
- Data logging and graphical trend chart for Watlow F4T controller
- 5 gallon water reservoir\*\*
- Recirculating system for humidity water\*\*
- Water demineralizer\*\*
- Reverse osmosis system\*\*
- Condensate pump\*\*
- External dryer for obtaining humidity levels as low as 5%\*\*
- Additional ports
- Additional stainless steel shelves
- Stainless steel exterior
- Heated viewing window
- Interior lighting
- Recording Instruments
- OTP high limit control
- Interior non-sealed Lexan door
- Interior vapor proof duplex receptacle
- NIST Calibration
- Tenney Environmental offers calibration services accredited to the ISO 17025 standard
- Additional engineered to order custom configurations available

\*Consult your Tenney/Lunaire Environmental Sales Representative for a full list of available options.

\*\*Humidity models only.
